SELECT EXPERIENCE

I-89 Pedestrian Bridge Benefit-Cost Assessment *Mr. Lane tailored a benefit-cost assessment (BCA) for a new pedestrian bridge connecting the University of Vermont to health, residential, and other opportunities*	City of South Burlington, VT	2020 (federal)
Trunk Road Extension Grant Package *Mr. Lane researched, tailored a BCA, and prepared the entirety of this grant proposal for a new roadway connecting a rural Alaskan community*	Matanuska-Susitna, AK	2018 (federal)
Mount Zion Road (KY 536) Realignment BCA/Review *Mr. Lane developed the benefit-cost assessment and narrative as well as providing a complete editorial and content review of the full grant package*	Kentucky Transportation Cabinet (state department of transportation)	2020 (federal)
Port of Coos Bay Rail Benefit-Cost Assessment *Mr. Lane led the development of a tailored BCA to improve track and tunnel conditions for this freight rail project that had the largest BUILD award in 2011*	Port of Coos Bay, OR	2011 (federal)
Rural Economic Development Grant Package *Mr. Lane led the development of a justification report that netted emergency relief funds amounting to a 19-1 return on investment for a small mountain town*	Rural Economic Development Center / Town of Crossnore, NC	2005 (state)

I have worked with non-profit groups to secure bike helmets to intermodal passenger rail stations and everything in between, helping clients receive tens of millions of dollars in awards. I'll support your community, projects, and passions in every phase of grant preparation with a full range of writing / web services, analytical tools (e.g., Tableau), editing, engagement, and graphics / mapping.
